EDUCATION

Ashesi University   **Sep 2018-May 2022**
BSc. Computer Science

WORK EXPERIENCE

Ashesi University | Berekuso, Ghana   **Aug 2022-April 2024**
Faculty Intern, Academic Mentor
- Prepared reports, coordinated presentations and contributed to lesson plan development and other departmental activities.
- Organized training sessions on coding, problem-solving, and software development principles to help my computer science mentees enhance their technical and coding skills

Versatilis Group | Accra, Ghana
Frontend Developer   **Jan-Mar 2024**
- Developed a new responsive user interfaces using [HTML, Bootstrap], while maintaining overall system performance and integrity with Laravel PHP as backend.
- Optimized Git practices, ensuring 70% resolution in merge conflicts, and minimizing project delays.

AI Research Project | Ashesi University   **Jul-Sep 2023**
Data Manager
- Managed the transcription of English audio recordings by students to evaluate the Automatic Speech Recognition Model.
- Organized students to capture English audio data, which helped to train an Automatic Speech recognition model and improve the program's accuracy and dependability.

Ashesi E-learning - Ashesi University | Berekuso, Ghana   **Jun-Jul 2023**
Frontend Developer
- Tasked with updating the system's text editor to allow users to include mathematical symbols in their submissions using ReactJS and Codecogs.
- Implemented a dynamic discussion board feature using ReactJS where users can post questions and receive timely responses.

Ashesi Experiential Transcript   **Sep-Oct 2022**
Frontend Designer & Developer
- Rebuilt the home interface using TailwindCSS and Javascript to improve its visual appeal for students to navigate the system and minimizing cross-browser issues.
- Improved the website load time by 10% by optimizing TailwindCSS utilities to minimize unused CSS.

PROJECTS/ RESEARCH

African Health Research and Innovation Project | Mobile Development   **Feb-Mar 2025**
- Developed mobile user interfaces using React Native to allow drug purchases and a web platform acting as a CMS to help the manager track records and update content on the app.
- Integrated frontend with backend APIs, enabling real-time data synchronization for features like maintenance tracking and appointment management.

Portfolio Website | Web Development   **June 2024**
https://kwekuyamoah.github.io/
- Leveraged React's component-based architecture to create reusable UI components to enhance user experience.
- Utilized TailwindCSS for responsive design and its PostCSS utilities to ensure cross-browser compatibility

Undergraduate Capstone (DuPa) | Ashesi University   **Aug 2021-May 2022**
- Built with HTML, CSS, and JS to design the frontend and PHP for the backend while incorporating the MVC model to promote modularization.
- Utilized asynchronous JavaScript and XML (Ajax) in conjunction with JavaScript to lower the site's load times.

SKILLS

- *Programming Languages:* JavaScript (ReactJS, React Native), HTML, CSS (TailwindCSS, Bootstrap), Figma, SQL, PHP, Python, Flutter.
- *Languages*: English (Native), German (Basic, A1)
- *Technologies:* Webflow, GitHub, Netlify, Microsoft Azure, Postman, LaTek.
- Microsoft Office Suite
- Excellent communication, good teamwork skills, and public speaking.

ACHIEVEMENTS & AWARDS

- Dean's List, Ashesi University.   2021
- Goethe-Zertifikat A1, awarded by Goethe-Institut   2025

MEMBERSHIPS & ORGANIZATIONS

- Ashesi CyberGeeks Club   2020
- Google Developer Student Club   2018-2020

VOLUNTEER EXPERIENCE

- Hackathon Judge, Ashesi Design Lab.   2022-2023
- Food for All Africa, Spintex Road Accra.   Mar-Apr 2021
